Bachelor Of Arts

SUMMARY

Highly skilled and reliable Land Surveyor with [X] years of experience in surveying, data management, and supporting construction and engineering teams on a variety of projects. Proven ability to maintain accurate records of survey data and related information, ensuring precision and compliance with local regulations. Expertise in assisting multiple departments, including supervision, engineering, quantity surveying, and design teams, to ensure seamless project execution.

Key responsibilities include setting out and controlling all axes, gridlines, structure and concrete work, earthwork, and drainage systems. Adept at establishing elevations for various structural elements and ensuring the accurate leveling of earthworks. Experienced in controlling the layout of concrete blocks, walls, and utility points for electrical and plumbing systems, guaranteeing that all work is completed according to specifications and standards.

Known for assisting and supervising construction activities, conducting site inspections, and collaborating with engineers and designers to maintain project timelines. Proficient in preparing as-built markup drawings and ensuring that all changes and updates are accurately documented. Strong attention to detail and a commitment to safety and quality have consistently contributed to the successful completion of projects within budget and on schedule.
